INNOVATIVE MATERIALS FOR INTERIORS.
ITALIAN DESIGN SINCE 2013.

FENIX are the innovative materials created for interior design by Arpa Industriale. Applying proprietary technologies, the external surface of FENIX is characterised by the use of next generation acrylic resins, hardened and fixed through an Electron Beam Curing process. With low light reflectivity, FENIX surface is extremely opaque, soft touch and anti-fingerprint. Thermal healing of superficial micro-scratches is also possible. Three types of materials are available: FENIX NTM®, FENIX NTM Bloom®, FENIX NTA®. They are suitable for both vertical and horizontal applications (kitchens, bathrooms, design furniture, retail, offices, and contract).

FEATURES

Low light reflectivity, extremely matt surface

Soft touch

Thermal healing of superficial microscratches

Anti-fingerprint

OVER 65 YEARS OF RESEARCH, TECHNOLOGY AND INNOVATION.

Since 1954 Arpa Industriale has been designing and manufacturing high quality HPL panels for the most diverse applications. In 2013 Arpa launched the first material of FENIX family. FENIX are the innovative smart materials for interiors developed by an international multidisciplinary team with proprietary in-house technologies. Arpa: open innovation for interior design.

NOVER. A PARTNER YOU CAN TRUST.

Spanning a history of 65 years, Nover is a proud Australian owned and operated company specialising in the wholesale distribution of quality products to the kitchen, joinery and furniture manufacturing sector. Through our continued dedication to excellence and an unwavering focus on innovation, we are pleased to supply the industry's largest product range.

Italian design since 2013
